Manufactured under license from Dolby Laboratories.

Dolby and the double-D symbol are trademarks of Dolby Laboratories.

1 Safety precautions

CAUTION:

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to "dangerous voltage" and to prevent from a risk of electric shock.

Warning:

To reduce the risk of electric shock, don't open the cabinet. Refer servicing to qualified personnel only.

The exclamation point within an equilateral triangle is intended to alert the user to important operating and maintenance (servicing).

WARNING: Do not use this STB where contact with or immersion in water is a possibility. Do not use near flower vase, washbowls, kitchen sinks, laundry tubs, swimming pools, etc.

WARNING: Do not put the candle or lamp stand on the cabinet; otherwise, there is the danger of fire.

WARNING: The unit should be connected to a power supply only of the type described in the operating instructions or as marked on the unit. If you are not sure of the type of power supply (for example, 120 or 230 V) to your home, consult your local dealer or local power company.

WARNING: This product install diodes. Do not open the cabinet or touch any parts in the inner mechanism. Consult your local dealer for technical service if the opening is required.

Note: To ensure proper use of this product, please read this User manual carefully and retain for further reference.

Note: This product install diodes. Do not open the cabinet to avoid the unit direct exposure to radiation.

Unit Cleaning: After the unit power is turned off, you can clean the cabinet, panel and remote control with a soft cloth lightly moistened with a mild detergent solution.

Attachments: Never add any attachments and/or equipment without the manufacturer consent; as such additions may result in the risk of fire, electric shock, or other personal injury.

Locating: Slots and openings in the cabinet are provided for ventilation to protect it from overheating. Do not block these openings or allow them to be blocked by placing the STB on a bed, sofa, or other similar surface, nor should it be placed over a radiator or heat register.

Power-Cord Protection: Place the power-supply cord out of the way, where it will not be walked on. Please take special attentions to cords at plugs, convenience receptacles, and the point where they exit from the unit.

Object and Liquid Entry: Never put objects of any kind into this STB through openings, as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill any liquid on the STB.

Note: Moisture may be formed on the lens in the following conditions:

- when the unit is suddenly moved from a cold environment or an air-conditioned room to a warm place.
- immediately after a heater has been turned on.
- in a steamy or very humid room.

If the moisture forms inside the unit, it may not operate properly. To correct this problem, turn on the power and wait about two hours for the moisture to evaporate.

Parts Replacement: When the unit parts need to be replaced, user should make sure the service technician uses the replacement parts specified by the manufacturer or having the same characteristics as the original part. Unauthorized replacement may put the unit at risk of fire, electric shock or other hazards.

Safety Check: After all the maintenances and repairs are done, user is required to request the service technician to conduct the overall safety check to ensure the machine is in the proper condition.

2 INTRODUCTION

Thank you for purchasing the HD Receiver.

This HD Receiver is fully compliant with the international DVB standard and thus transmits digital images, sounds, information guides and teletext directly to your TV through the broadcasting.

Now you can comfortably see and receive digitally transmitted music, news, movie and sports broadcasts in your office or at your home.

In service search section, both the automatic service search method and the manual search mode are provided. You can save up to Endless TV and Radio services and work around with the favorite, Lock, Delete, Move and Sort functions.

The menu is very modern and supports multiple languages. All functions can be carried out using the remote control and some of the functions can also be carried out using the front panel. The HD Receiver is easy to use and adaptable for future advances. Please be aware that new software may change the functions of the HD Receiver.

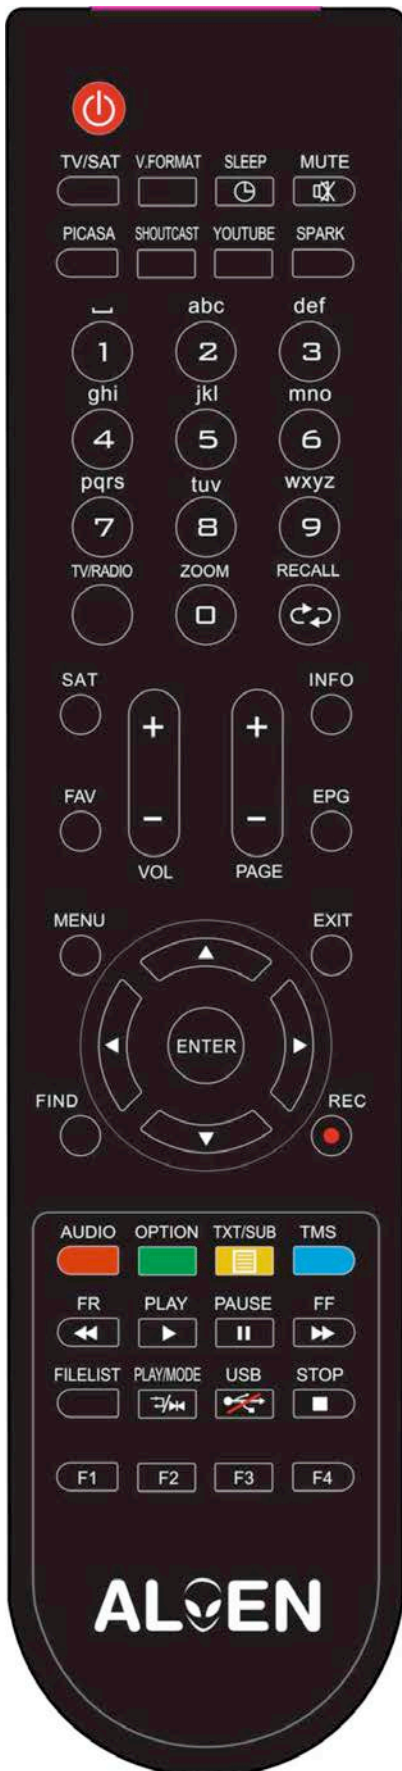

If you have any difficulties concerning the operation of your HD Receiver, please refer to the relevant section of this manual, including the 'Troubleshooting'. This Manual will provide you with useful information on using the HD Receiver.

3 FEATURES

- MPEG-Fully DVB-S / DVB-S2 HD compliant
- Endless channels (TV and Radio) programmable
- Multilingual menu text support
- Channel list editing
- Favourite channel list editing
- True-color On-Screen Display (OSD)
- Full Picture In Graphic (PIG) function
- Electronic Program Guide (EPG) for on screen channel information
- Subtitle supported

-
- Teletext supported by software emulation
 - Parental lock facility by channel and program event
 - Program and Channel information transfer from receiver to receiver
 - S/PDIF for digital audio or Dolby digital bitstream output
 - DiSEqC 1.0, 1.1, 1.2 and USALS
 - HDMI HD Video/Audio Output
 - USB 2.0 Host
 - LED Display for service information
 - RTC (Real-Time-Clock)
 - Time Shift
 - Video Recording
 - Recording one channel and Time Shifting another channel (optional)
 - Conax Embedded Card Reader
 - FullHD 1080p output via HDMI
 - AVI, MKV, MPG, TS, WMA, WMV, M2TS, FLV, DAT, ASF, MP3 playback
 - YouTube, SHOUTcast Radio, and Picasa Compatible
 - Weather forecast & Rss Reader Functions
 - Software Upgrade support via USB, RS232 or Internet
 - Endless possibilities with Plug-In support
 - Message, FAQ and User Manual support
 - Download files from FTP server
 - Base on LINUX

4 Remote Control

You can power on/off the receiver, operate on screen menu, and use a variety of hot key function.

POWER

To switch your receiver on from standby or standby to on.

TV/SAT

Receiver switches between TV and receive mode.

V. FORMAT

Press P/N button to switch the display mode among "By source", "By native TV", "480i", "480P", "576i", "576p", "720P" and "1080i".

SLEEP

Press the key you can setup up the Standby time.

MUTE

Used to enable or disable the audio

PICASA

Display picasa menu.

SHOUTCAST

The shortcut for shortcast menu.

YOUTUBE

To show youtube menu.

SPARK

Press the key to enter the spark menu.

NUMERIC KEYS

Used to select channels or enter programming parameters

TV / RADIO

Receiver switches between TV and Radio mode.

ZOOM

Press the key select zoom times, from X1 to X16.

RECALL

Return to the previous menu or status.

SAT

Display the satellite list at normal picture.

FAV(FAVORITE)

To set receiver to the favorite server mode, display the favorite channel.

+, -VOL KEY

To adjust volume level, or to move cursor left or right in the menu.

+, -PAGE KEY

To move up the cursor to the next or previous page in the menu or channel list.

INFO(INFORMATION)

To display channel status or various program information of current service.

EPG(Electronic Program Guide)

Display the Programs guide on screen when available.

MENU

Displays the Main Menu on the screen, or return to the previous menu or status.

FIND

Use to prompt find channels sort by character.

<, >KEY

To adjust volume level, or to move cursor left or right in the menu.

^, V KEY

To change channels, or to move cursor up or down in the menu.

ENTER

To select menu option, or to updated on entry.

EXIT

Cancel the user selection and return to the viewing mode from a menu.

● REC

To start recording.

AUDIO (Red Key)

Audio channels setup, to select audio mode; Left, Right , Stereo, Mono.

OPTION (Green Key)

Shows NVOD information of the current channel supports.

TXT(Yellow Key)

Shows teletext information of the current channel supports.

SUBTITLE(Yellow Key)

Subtitle Display.

TMS(Blue Key)

Press this button to display Time Shift info bar.

◀ FR

To start Fast Backward function.

▶▶ FF

To start Fast Forward function.

▶ Play

To play the MP3, JPEG, or Record files.

|| PAUSE

Used to select the freeze function.

Press once to freeze the screen picture.

FILELIST

Press this button to enter the filelist menu directly.

⏮/▶▶ PLAY MODE

Select the play mode in MP3 or JPEG player.

USB

Used to uninstall the USB.

■ Stop

To stop the Time Shift, recording, or MP3/JPEG player.

F1

Press the key to display quickbar menu.

F2**F3****F4**

5 Front panel

POWER KEY: To switch the receiver power on/stand by

MENU KEY: Displays the Main Menu on the screen, or return to the previous menu or status.

<,> KEY: To adjust volume level, or to move cursor left or right in the menu.

^, v KEY : To change channels, or to move cursor up or down in the menu

OK KEY: To see TV/Radio channel list, or to confirm in the menu.

Remote Sensor: Detects infrared signal from remote control unit

Display: (LED type) Indicates operating status of receiver

POWER Indicator: while the receiver is power on and at standby mode.

Card Slot: One slot CA Interface for Conax, Insert the smart card chip side up!

6 Rear Panel

Please refer to the diagram above for all possible connections of your receiver

Do not connect the unit to the mains socket until all other connections have been made and checked. Your configuration can vary depending on model

LOOP: This enables the connection of another receiver.

LNB IN : This port is to connect the coaxial cable from satellite antenna.

AUDIO R/L : These RCA connectors are used to connect any external audio amp or system.

TV: This is used to connect your TV through SCART cable.

HDMI: Audio and Video output socket for TV set with HDMI Input Jack only.

CVBS: Component video output socket for TV set.

S/PDIF: Audio output socket for speaker set with PDIF.

USB: USB 2.0 Host, connect to USB hard disk, or flash disk

RS 232C: This is used to connect your receiver to a computer through a serial cable.

POWER: To switch ON/OFF the receiver power supply.

ETHERENT: This is used to connect internet.

7 Connecting Your System

There are three ways to connect the receiver to your existing TV system. We recommend using one of the following cases for the best result:

1. If you have a high definition television set, you should use a HDMI cable for best result, Plug one end of the cable into the HDMI socket on the receiver, and the other end into the matching socket on your television. In this case, you do not have to make audio connections because the HDMI connector can output stereo audio or Dolby digital audio.

2. Connect one end of SCART cable to the TV (SCART) jack on the back of the receiver and the other end to a SCART jack on your TV.

3. Connect one end of RCA cable to the RCA jack on the back of the receiver and the other end to a RCA jack on your TV.

Finally connect the coaxial cable from the operator to the CVBS jack on the receiver.

With External Audio / Hi-Fi System

To connect any external Audio Hi-Fi system, the receiver has been provided with two RCA connectors at the back of the receiver marked with Audio L and R.

Connect an RCA stereo cable from the AUDIO L, R jacks on the back of the receiver to the LINE, AUX, SPARE OR EXTRA input jacks on your Hi-Fi System.

7.1 TV with Motorized System (DiSEqC 1.2)

Connect one end of your coaxial cable to the LNB IN connector on the receiver and the other end to the REC or Receiver connector on the DiSEqC 1.2 motor.

Connect the coaxial cable from the LNB to the LNB connector on the DiSEqC 1.2 motor.

All our receivers are designed to be DiSEqC 1.0 and DiSEqC 1.2 compatible.

This allows multiple antennas to be connected to the receiver at the same time.

If you have two or more fixed antennas or LNBS, then we recommend you use a DiSEqC 1.0 switch.

Connect the coaxial cable from the first LNB to the LNB 1 or LNB A input connector of the DiSEqC switch.

Do the same for any other LNBS that you have.

connect the other end to the LNB IN socket on the receiver.

To the digital receiver, you can connect either a single satellite antenna directly or LNB of multi-feed equipment.

8 Basic operations

Turn on STB

First, press the [⏻POWER] to turn on the unit.

When the STB is first used, there will play the first channel from the default Channel List. If the STB is not first used, STB will play the same channel as last time before turning off.

? Frequently Asked Question

Q: The power of my STB has been turned on and not in Standby mode, but the TV screen showed nothing:

A: Make sure the TV set has been set to the correct video input (not the TV channels). For example, if you have connected the unit with the Video1 input of the TV set, the TV set has to be switched to Video1.

Q: The power of my STB has been turn on and not in Standby mode, but the TV screen showed nothing except popup window with “No Signal” information.

A: That means the channel, which you select, is no signal. Check connection of signal cable or contact operator.

Power

1. Press [⏻POWER] Key can enter the Standby state
2. In Standby state, press [⏻POWER] Key again can call back the unit and go on play the previous channel
3. User can also disconnect the device's main power to end the Standby state.

Channel Up/Channel Down

In full screen, press [↑/↓] to change channel.

Volume Up/Volume Down

In full screen, press [←/→] or [vol+/vol-] to adjust volume.

Number

In full screen, use number key and press [ENTER] on the Remote Control Unit to change channel.

Mute

1. Press [MUTE] key to mute the sound and the screen will show up mute OSD.
2. Press [MUTE] key again to restore sound.

Pause

1. In playing mode, press [PAUSE] key, the picture will be paused, but the sound of the channel will still continues.
2. Press [PLAY] key, the screen's picture will skip over to the current playing picture, and the sound of the channel will corresponding playing.

Press [RECALL] key will directly switch to the previous channel that you played before current channel.

Favourite

1. In full screen, press [FAV(FAVORITE)] key, it will display a window of “Favorite Group” on the left of the screen, which you can watch like below:

2. You can press [←/→] keys to select different “Favorite Group”.

Pressing [Page+/Page-] keys can implement the “Page up/Page down” function

3. Press [Exit] key to exit the current window.

SAT

1. In full screen, press [SAT] key, it will display a window of “satellite Group” on the left of the screen, which you can watch like below:

2. You can press [↑/↓] keys to select different “Favorite Group”.

3. Press [Exit] key to exit the current window.

? Frequently Asked Question

Q: Why the screen displays “No Favorite Channel”, after pressing [FAV(FAVORITE)] key?

A: It is because that you haven't set any channels as “favorite channel”. Please refer to Favorite

Audio

1. In full screen, press [AUDIO] key can open the “Audio” window on the screen.

2. You can modify the audio track by press [←/→] key and modify the audio mode by press [←/→] key.

3. Mode: Left/Right/Stereo/Mono

Information

In full screen, press [i(INFORMATION)] key can open infobar ,press again to display EPG information screen, then press [red] key to display information screen, in the window shows the parameters of current channel.

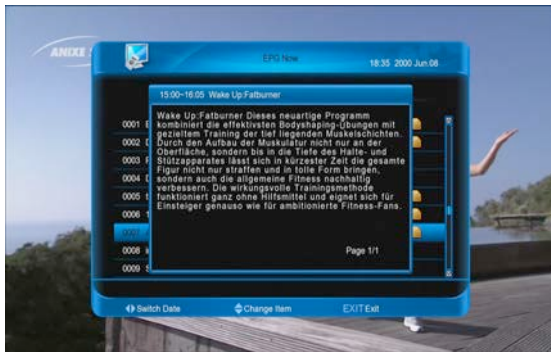

EPG

1. The STB has an Electronic Program Guide (EPG) to help you navigate channels through all the possible viewing options. The EPG supplies information such as channel listings and starting and ending times for all available channels.

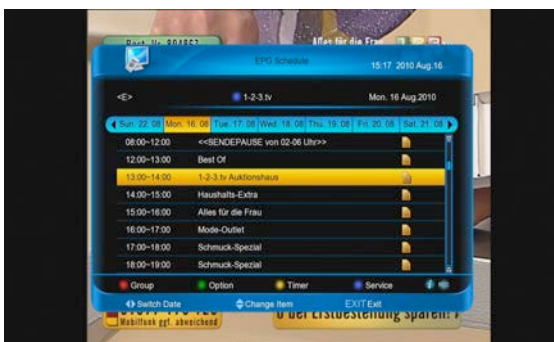

Press [EPG] key to display Program Guide.

2. Press [ENTER] key in each item can see more detail information.

3. Press [RED] key to open the "Group" window. You can press [↑/↓] key to move highlight and press [ENTER] key to select group of channels.
4. Press [GREEN] key to open "Options" window. You can press [↑/↓] key to move highlight and press [ENTER] key to select EPG events display mode: Now EPG, Next EPG, More, Schedule.

5. Press [YELLOW] key to open "Timer" window. User can set a timer as he want. More about timers You can read in
6. Press [REC] key to directly add timer for recording event.

7. In EPG menu, press [EXIT] to close EPG screen.

TV/RADIO

In TV mode, pressing [TV/RADIO] key can switch to Radio mode. In Radio mode, press [TV/RADIO] key to switch to TV mode.

TV List

1. In full screen, press [ENTER] key to enter "TV List".

2. Press [BLUE] key to open the "Sort" window. There are five kinds of sorting ways.
3. Press [GREEN] key to recall shortcut to EPG actual event details.
4. Press [YELLOW] key to enable shortcut to channel parameters edition.
5. Press [↑/↓] key to move highlight and press [ENTER] key to play the highlighted channel.
6. Press [Page+/Page-] key to page up and page down.
7. Press [EXIT] key to exit the channel list.

Sleep

1. This function can set sleep timer. When you set a sleep timer and the time arrive, the system will enter to standby automatically.
2. Press [SLEEP] key to switch the mode between Sleep Timer Off /10 /30/60/90/120 minutes.

Page Up/Page Down

1. In Channel list, press [Page+ / Page-] key can page up and page down the channel list.

TXT

1. Press [YELLOW] key in full screen, you can open teletext & subtitle menu and choose teletext, then press [ENTER] key on the channel which has teletext information.

2. If the channel has no teletext information, it will show "No Teletext" on the screen.

Subtitle

1. Press [YELLOW] key in full screen, you can open teletext & subtitle menu and choose subtitle, then press [ENTER] key on the channel which has subtitle information.

2. If the channel has no subtitle information, it will show "No subtitle" on the screen.

Find

1. Press [Q(FIND)] key in full screen can open the "Channel Find" window. You can press then press number keys to input the seles [←, →, ↑, ↓] keys to move highlight and press [ENTER] key or press [F1] key to swich keyboacted symbol or letter into the dialogue.

2. After input each character, the program list on the left will search the channel according your input, and list the matched channel.

3. Press [red] button ,Move highlight to you select channel and press [ENTER] key to switch chianel from the channels list fdirectly .

Zoom

1. The [ZOOM] key allows you to magnify a certain area on the images
2. Press [ZOOM] key again, the image will enlarge rotate as x1, x2, x4, x6, x8, x12, x16.
3. In "x2 ~ x16" mode, using [←, →, ↑, ↓] keys to move the image center area you want to see.
4. In zoom mode, press [EXIT] to close "Zoom" Window.

NVOD

Press [GREEN] key in full screen, it display NVOD menu if it has NVOD. Or it will show "no option channel".

TV/SAT

Press [TV/SAT] key can switch between TV mode and STB mode

Menu

Press [MENU] key can open the menu, exit the current menu to last menu or close the window.

Video Format

Press [V.FORMAT] key under Full Screen playback continuously press this key, system will switch its outputting video resolution by sequence "

Auto N/P-> 480-> 576-> 720-> 1080".

Time Shift

1. If you connect the USB HDD, and enable the Time Shift function in the menu "Main Menu/ USB/ PVR Setting/Time Shift", it will start the Time Shift function automatically after you switch the program, and when you press the [play] button the Time Shift info bar will displayed as the following picture:

2. You can press [II] button to pause the video
3. You can press [◀◀] or [▶▶] button to Fast Backward or Fast Forward.
4. Press [←] or [→] button to jump to different position
5. Press [■] button to exit the playback.

a) Record

1. If you connect the USB HDD, You can press [●] button to start record function, as following picture:

2. Press [■] button to display the record info bar when you recording.
3. Press [●] button again to pause the record time.

4. You can press [II] button to pause the video.
5. You can press [◀◀] or [▶▶] button to Fast Backward or Fast Forward.
6. Press [←] or [→] button to jump to different position.
7. Press [■] button to stop the recording.

b) Exit

Press [EXIT] key can exit the current menu to last menu or close the window

quickbar

In full screen press [F1] button to enter quickbar, like below:

It show weather message, time and state of NET and USB, and has shortcut to enter to "weather" menu. It also has message box.

PICASA

In full screen press [picasa] key to display picasa menu immediate.

SHOUTCAST

In full screen press [shoutcast] button to enter shoutcast menu immediate.

YOUTUBE

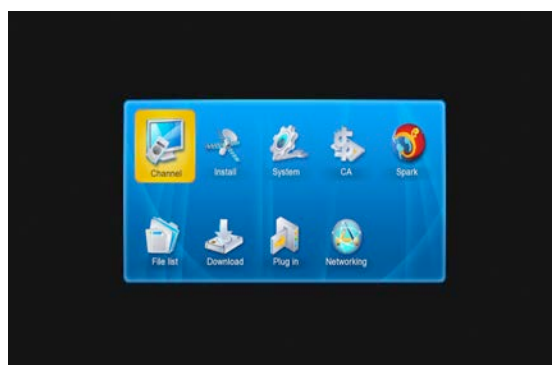

In full screen press [youtube] button to show youtube menu immediate.

SPARK

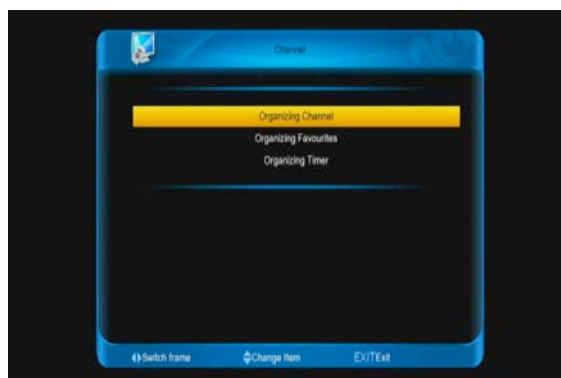

In full screen press [spark] button to enter the spark menu immediate.

9 Menu "Channel"

When you press [Menu] key to enter menu, there will display the picture like below:

1. Press [↑/↓] and [←/→] key to select menu pages among channel, Install,, System, CA, Spark, file list,download and plug in.
2. Press [ENTER] key to enter the selected item.

In "channel" menu:

1. Press [↑/↓] key to select menu items among Organizing channel ,Organizing Favourites and Organizing Timer.

2. Press [ENTER] key to enter the selected item.

9.1 Organizing Services

When you enter to “Organizing Channel” menu, there will display the screen like below.

1. You can move highlight by press [↑/↓] keys and press [ENTER] key to confirm to preview the current highlighted program in the left side preview window.
2. You can press [Page+/Page-] keys to implement the Page Up/Page Down function.
3. You can use [←/→] key to switch between list of channels and list of channel edit functions – Move, Lock, Delete, Rename, Skip.
4. Press color key can implement the corresponding function – Group, Options, Find.
5. You can press [Exit] key to enter full screen playing mode.

9.1.1. Move

You can reorder and move the service to the preferred position. Mark the desired services using [ENTER] button, use [→] button to choose Move mode and press [ENTER] button, then use [↑/↓] buttons to move and press [ENTER] button to confirm.

9.1.2. Lock

You can restrain and lock the services. Mark the desired services using [ENTER] button,

use [→] and [↑/↓] button to choose Lock mode and press [ENTER] button to confirm.

9.1.3. Delete

You can delete the services. Mark the desired services using [ENTER] button, use [→] and [↑/↓] button to choose Delete mode and press [ENTER] button to confirm.

9.1.4. Rename

Mark the service you want to rename, use [ENTER] button to select one Rename item, use [→] and [↑/↓] button to choose rename icon and press [ENTER] button to display keyboard, and rename it. After renaming it press [red] button on keyboard to save.

9.1.5. Skip

You can restrain and Skip (hide) the services. Mark the desired services using [ENTER] button, use [→] and [↑/↓] button to choose Skip mode and press [ENTER] button to confirm.

9.1.6. Group (RED)

It is very useful to select services with different Groups.

9.1.7 Options (GREEN)

It is very convenient function to Mark the desired services with different options.

9.1.8 Find

It is an item to locate certain service by name quickly. Press [🔍] button to display the “Channel Find” submenu, use keyboard to enter service name and press [red] button to complete input and select the desired services.

9.2 Organizing favourites

When you enter to “Organizing favourites” menu, there will display the screen like below.

1. You can move highlight by press [↑/↓] keys in the left and right side list window.
2. You can press [Page+/Page-] keys to implement the Page Up/Page Down function.
3. You can use [←/→] key to switch between list of all channels at the left, list of channel in actual selected FAV list at the right and edit functions in the middle of the screen – Add, Remove, Move, Rename.
4. Press color key to implement the corresponding function – Group, Options, Find (described in previous chapter).
5. Press FAV(FAVORITE) key when cursor is active in left or right window, to choose actual FAV list.
6. You can press [EXIT] key to enter full screen playing mode.

9.3 Organizing Timer

In "Organizing timer" menu, there will display the screen like below.

1. You can move highlight by press [↑/↓] keys and press [ENTER] key to confirm to the desired items.

2. Press color key to implement the corresponding function --Delete, Edit, New.
3. You can press [EXIT] key to enter full screen playing mode.

When you enter to "timer configuration" Menu, you will see a screen like below:

1. Number: Display the order of current item.
2. Service : Show the channel, if you want change, press [ENTER] key.
3. Event name: Show event default name, you also press [red] key to rename it.
4. Start date: Show start date of event, you can press number keys to change it.
5. Start time: Show start time of event, you can press number keys to change it.
6. End date: Show end date of event, you can press number keys to change it.
7. End time: Show end time of event, you can press number keys to change it.
8. Repeat: Show the event transact times, press [left/right] key to switch among once, everyday, a week, workday, weekend.
9. Timer mode: Type of the event, it has change service and HDD record.

10 Menu “Installation”

When you enter to “Installation” menu, there will display the screen like below:

10.1 Satellite Installation

10.1.1 Satellite

1. Satellite: Press [ENTER] key to enter the Satellite list.

2. Press [↑/↓] key to select satellite. Press [Page+/Page-] key to page up or page down.

10.1.2 LNB

In this item, press [←/→] to switch among “C-Band(5150)”, “KU Band(11300)” “One Cable L”, “One Cable H”, “Uni(9750/10600)”, “Uni(9750/10750)”, “Low Band(9750)”, and “High Band(10600)” mode.

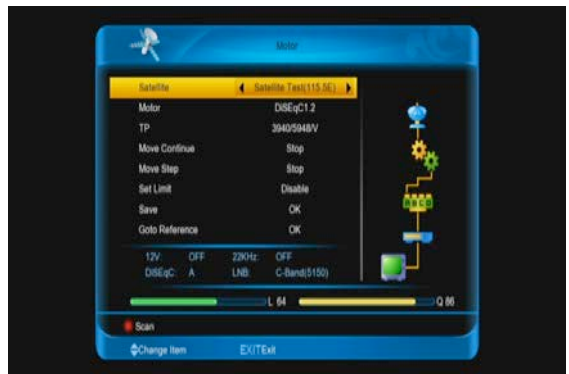

10.1.3 DiSeqC

DiSeqC: You can use [←/→] key to switch options. There are several options for your selection:

- OFF: without DiSeqC.
- 1/4, 2/4, 3/4, 4/4: 4 ports DiSeqC
- 1/16, 2/16....16/16: 16 ports DiSeqC

10.1.4 Motor

Motor: In “motor” item, you can press [←/→] key to switch “OFF/ DiSeqC 1.2 / USALS” Functions.

10.1.5 22K

You can use [←/→] key to switch “ON / Off”. When this item is switched to “ON”, receiver will receive TV and radio input signal from 22K port. If the item is switched to “Off”, the receiver will receive all signal from OK port.

Note:

When you choose LNB type “Universal”, you cannot modify 22K.

10.1.6 0/12V (Optional)

You can use [←/→] key to switch “0V / 12V”. When this item switches to “12V”, receiver will receive TV and radio input signal from 12V port. If the item switches to “0V”, the receiver will receive all signals from 0V port.

10.1.7 My Longitude

In “Toneburst” item, you can press [←/→] key to switch “E/W” functions.

10.1.8 Power

In “Polarity” item, [←/→] key to switch or press [ENTER] key to enter list for selection among "OFF" , "13", "18", "13/18", "13.5", "18.5" and "13.5/18.5".

10.1.9 Satellite

In “Satellite” item, press [←/→] key to switch satellite that you want to scan or press [ENTER] key to enter satellite list for selection.

10.1.10 Edit TP

When you enter to “Edit TP” menu, there will display the screen like below:
